INDEPENDENT AUDITORS' REPORT

August 30, 2004

To the City Council City of Linden Genesee County, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the *City of Linden*, *Michigan*, as of and for the year ended June 30, 2004, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the *City of Linden*, as of June 30, 2004, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons of the General, Major Streets, and Local Streets governmental funds for the year then ended in conformity with accounting principles general accepted in the United States of America.

As described in Note 1, the City adopted the provisions of Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis-For State and Local Governments; Statement No. 37, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments: Omnibus; Statement No. 38, Certain Financial Statement Note Disclosures; and GASB Interpretation No. 6, Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements, as July 1, 2003. This results in a change in the format and content of the financial statements.

In accordance with Government Auditing Standards, we have also issued our report dated August 30, 2004, on our consideration of the City of Linden's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis listed in the table of contents on pages 3-12 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the *City of Linden's* basic financial statements. The combining and individual nonmajor fund financial statements and schedules, supplementary information, and schedule of expenditures of federal awards listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information, except for that portion marked "unaudited" on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects in relation to the basic financial statements taken as a whole.

Rehmann Lohan

Management's Discussion and Analysis

As management of Linden, Michigan, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2004. We encourage readers to consider the information presented here.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$6,572,475 (net assets). Of this amount, \$3,508,851 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets increased by \$1,454,295.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$1,693,356. Over fifty-five percent of this total amount, or \$948,320, is available for spending at the government's discretion (unreserved fund balance).
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$594,876, or thirty percent of total general fund expenditures.
- The City's total debt increased by \$100,000 during the fiscal year as a result of financing park improvements (boardwalk).

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected special assessments).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government (including administration and recreation), public safety, public works, and cemetery operations. The business-type activities of the City include sanitary sewer and water operations.

The government-wide financial statements can be found on pages 13-14 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains twelve individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Major Street, Local Street, and N. Bridge Street 2003 Debt Service Funds, each of which are considered to be major funds. Data from the other eight governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City adopts an annual appropriated budget for its general and special revenue funds. Budgetary comparison statements or schedules have been provided herein to demonstrate compliance with those budgets.

The basic governmental fund financial statements can be found on pages 15-21 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its sanitary sewer and water operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for motor pool operations. Because this service predominately benefits governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sanitary sewer and water operations, both of which are considered to be major funds of the City. The equipment pool internal service fund is presented in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on pages 22-26 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-48 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the accompanying notes. Combining and individual fund statements and schedules can be found on pages 49-50 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of City, assets exceeded liabilities by \$6,572,475 at the close of the fiscal year.

A significant portion of the City's net assets (34%) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City's Net Assets

	Governmental Activities 2003	Business-Type <u>Activities</u> 2003	<u>Total</u> 2003
Current and other assets Capital assets Total assets	\$ 2,828,772	\$ 1,991,193	\$ 4,819,965
	<u>3,760,783</u>	5,403,722	<u>9,164,505</u>
	<u>6,589,555</u>	7,394,915	<u>13,984,470</u>
Long-term liabilities outstanding Other liabilities Total liabilities	3,285,280	3,856,692	7,141,972
	142,808	127,215	270,023
	3,428,088	3,983,907	7,411,995
Net assets: Invested in capital assets, net of related debt Restricted Unrestricted	655,995	1,547,030	2,203,025
	612,671	247,927	860,598
		1,616,051	3,508,852
Total net assets	\$ 3,161,467	\$ 3,411,008	\$ 6,572,47 <u>5</u>

Of the remaining balance of net assets, approximately 13% (\$860,598) is restricted resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (53% percent, or \$3,508,852) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The City's net assets increased by \$1,454,295 during the fiscal year. This growth largely reflects the degree to which ongoing revenues exceeded ongoing expenses.

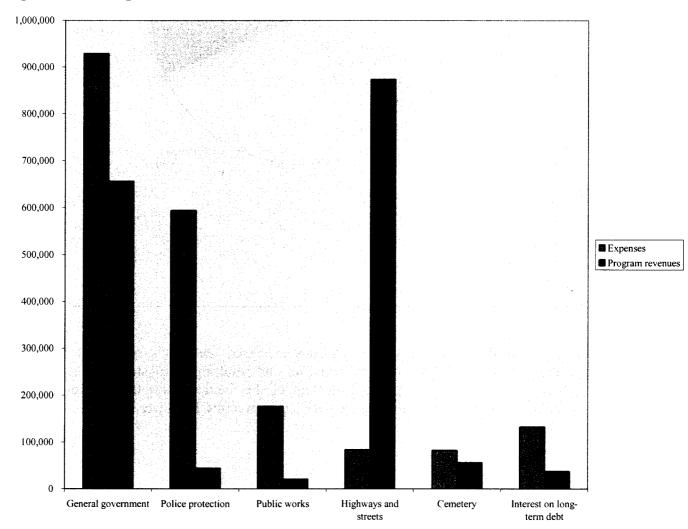

City's Changes in Net Assets

		<u>* ~,111,000</u>	<u>\$ 6,572,475</u>

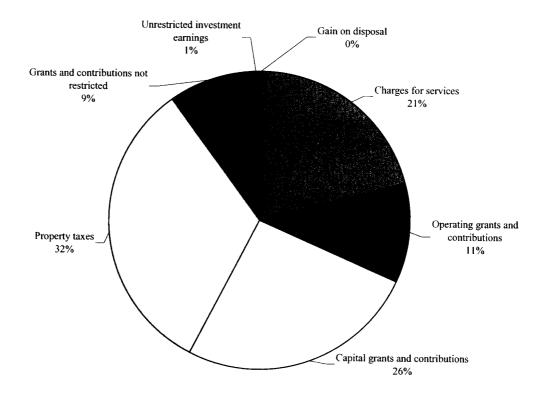

Governmental activities. Governmental activities increased the City's net assets by \$933,317. Key elements of this increase are as follows:

- Property tax revenue increased by \$114,293 (13.7 percent; from \$835,841 to \$950,134) during the year. This increase is the predominantly the result of significant and continuing residential growth in addition to increased taxable values.
- Grants and contributions not restricted to specific programs were composed of the sales tax revenues shared by the State of Michigan under the Revenue Sharing Act. The State's annual allocation to the City was reduced by \$12,458 (4.5 percent; from \$276,721 to 264,263).
- The City originally budgeted expenses to exceed revenues (by approximately nine percent), but actual revenues surpassed actual expenditures by approximately two percent.

Expenses and Program Revenues - Governmental Activities

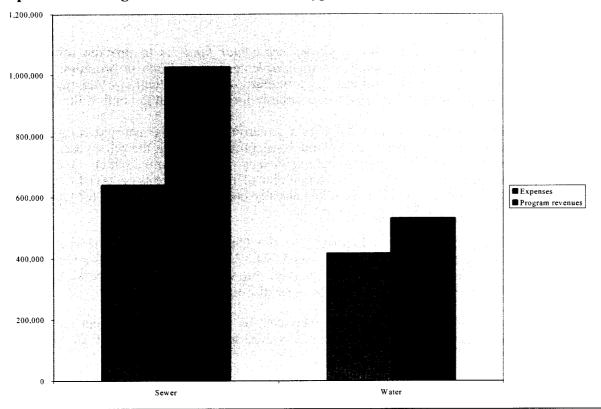

Revenues by Source - Governmental Activities

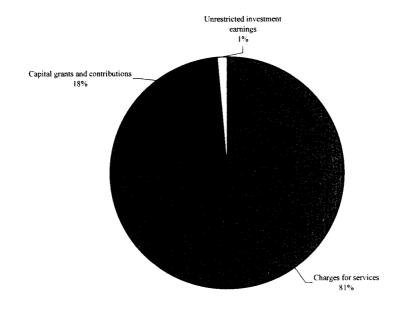

Business-type activities. Business-type activities increased the City's net assets by \$520,978, adding to the growth of the governmental activities and resulting in substantial growth in the net assets of the City. The most significant element of this increase was the charges for services (\$500,678) that is the result of changes in the City's rate structure for sewer services.

Expenses and Program Revenues - Business-type Activities

Revenues by Source - Business-type Activities

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$1,693,356, a decrease of \$456,068 in comparison with the prior year. Over half of this amount (56%, or \$948,320) constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed to pay for specific capital projects or for a variety of other restricted purposes.

The General Fund is the chief operating fund of the City. At the end of the fiscal year, the unreserved fund balance of the General Fund was \$594,876. As a measure of the General Fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures: unreserved fund balance represents 30% of total General Fund expenditures.

The fund balance of the City's General Fund increased by \$98,461 during the current fiscal year. This is primarily attributable to contract proceeds related to the construction of a boardwalk in a City park.

The Major and Local Street Funds are the City's primary funds utilized for street construction and maintenance. At the conclusion of the fiscal year, the Major Street Fund had a fund balance of \$266,387 (a reduction of \$370,286 due to the N. Bridge Street construction project); the Local Street Fund, \$87,057 (a reduction of \$221,258 due to local street construction related to the N. Bridge Street construction project).

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the sanitary sewer and water funds at the end of the year amounted to \$2,278,778 and \$868,028, respectively. The sanitary sewer fund had an increase in net assets for the year of \$399,751 and the water fund had an increase in net assets for the year of \$121,210. Other factors concerning the finances of these two funds have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

Differences between the original and final amended budgets for expenditures were relatively minor and the adjustments were made as a part of the City's budget procedures to address changes in activity during the year.

Budget to actual comparisons for the City's general fund were generally favorable, although to varying degrees.

Capital Asset and Debt Administration

Capital assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2004, amounted to \$9,164,505. This investment in capital assets includes land, buildings and system, improvements, equipment, and construction in progress. The total increase in the City's investment in capital assets for the fiscal year was \$1,510,793.

Major capital asset expenditures during the fiscal year included the following:

- The reconstruction of N. Bridge Street and Fairway Court.
- The construction of a new parking lot.
- The purchase of a new backhoe.

City's Capital Assets (net of depreciation)

	Governmental <u>Activities</u>	Business-Type <u>Activities</u>	<u>Total</u>
	2003	<u>2003</u>	<u>2003</u>
Land Buildings and improvements Systems Equipment	\$ 84,069 575,546 - 536,517	\$ 7,027 - 5,396,695 -	\$ 91,096 575,546 5,396,695 536,517
Construction in progress	<u>2,564,651</u>		2,564,651
Total net assets	\$ 3,760,783	\$ 5,403,722	\$ 9,164,505

Additional information on the City's capital assets can be found in note III-C on pages 37-38 of this report.

Long-term debt. At the end of the current fiscal year, the City had total debt outstanding of \$7,141,972. Of this amount, \$2,150,000 represents bonds secured solely by specified revenue sources (i.e., revenue bonds), \$1,670,000 represents general obligation bonds, \$3,278,623 represents installment contracts, and \$43,349 represents accrued compensated absences.

City's Outstanding Debt
General Obligation and Revenue Bonds

	Governmental <u>Activities</u>	Business-Type <u>Activities</u>	<u>Total</u>
	<u>2003</u>	2003	2003
Revenue/Special assessment bonds	\$ 1,380,000	\$ 770,000	\$ 2,150,000
General obligation bonds Installment contracts	1,392,310 469,621	277,690 2,809,002	1,670,000 3,278,623
Accrued compensated absences	43,349		43,349
Total net debt	<u>\$ 3,285,280</u>	<u>\$ 3,856,692</u>	<u>\$ 7,141,972</u>

The City's total debt decreased by \$545,106 (7 percent) during the current fiscal year, with the addition of the Boardwalk Installment Contract for \$100,000 and debt payments being the primary change during the current fiscal year.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limitation for the City is \$10,177,800, which is significantly in excess of the City's outstanding general obligation debt.

Additional information on the City's long-term debt can be found in note III-F on pages 40-44 of this report.

Economic Factors and Next Year's Budgets and Rates

The following factors were considered in preparing the City's budget for the 2004-05 fiscal year:

- The February 2003 unemployment rate for the Flint metropolitan area (the City is in the Flint area) was 9.8 percent, which is an increase from a rate of 8.5 percent a year ago. This was higher than the state's February 2003 average unemployment rate (seasonally-adjusted) of 6.9 percent and the national average rate of 5.9 percent.
- The City is comprised of primarily residential areas, with limited commercial and negligible industrial activity.
- Inflationary trends in the region compare similarly to national indices.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Clerk, P.O. Box 507, Linden, Michigan, 48451.

CITY OF LINDEN

RECONCILIATION OF FUND BALANCES ON THE BALANCE SHEET FOR GOVERNMENTAL FUNDS TO NET ASSETS OF GOVERNMENTAL ACTIVITIES ON THE STATEMENT OF NET ASSETS JUNE 30, 2004

Fund balances - total governmental funds	\$	1,693,356
Amounts reported for <i>governmental activities</i> in the statement of net assets are different because:		
Long-term receivables are not available to pay for current period		
expenditures and, therefore, are deferred in the funds.		929,196
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		
Add - capital assets		3,661,589
Deduct - accumulated depreciation		(425,708)
Certain liabilities, such as bonds payable, are not due and payable in the cur	rent	
period and therefore are not reported in the funds.		
Deduct - accrued interest payable		(22,906)
Deduct - installment contracts payable		(237,143)
Deduct - bonds payable		(2,772,310)
Deduct - accumulated compensated absences		(43,349)
Elimination of Internal Service Fund activities		378,742
Net assets of governmental activities		3,161,467

CITY OF LINDEN

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGE IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2004

Net change in fund balances - total governmental funds	\$ (456,068)
Amounts reported for <i>governmental activities</i> in the statement of activities are different because:	
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds but rather are deferred to future fiscal years.	
Subtract - current year payments on special assessments receivable	(145,503)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Add - capital additions Deduct - depreciation expense	1,480,315 (51,129)
Bond and loan proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds and loans increases long-term liabilities in the statement of net assets. Repayment of bond and loan principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	
Deduct - proceeds on installment loan	(100,000)
Add - principal payments on long-term liabilities	207,857
Add - changes in accrued compensated absences	(5,907)
Some items reported in the statement of activities do not require the use of current	
financial resources and therefore are not reported as expenditures in the governmental funds	
Add - net decrease in accrued interest	1,401
Elimination of Internal Service Fund activities	2,351
Change in net assets of governmental activities	\$ 933,317

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting entity

The *City of Linden* (the "City") is a municipal corporation governed by an elected Council. The City has followed the guidelines of the Governmental Accounting Standards Board's Statement No. 14 and has determined no entities should be consolidated into its financial statements as component units. The criteria for including a component unit includes significant operational or financial relationships with the City. Therefore, the reporting entity consists of the primary government financial statements only.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of the interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, intergovernmental revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *major street fund* accounts for revenue provided for the purposes of maintenance of major streets within the City.

The *local street fund* accounts for revenue provided for the purposes of maintenance of local streets within the City.

The *n. bridge '03 debt service fund* accounts for the special assessments and related debt service for construction on N. Bridge Street.

NOTES TO FINANCIAL STATEMENTS

The City reports the following major proprietary funds:

The *sewer fund* accounts for the activities of the government's sewage disposal and treatment system.

The water fund accounts for the activities of the government's water distribution and treatment system.

Additionally, the City reports the following fund types:

Internal service funds account for fringe benefit and fleet management services provided to other departments or agencies of the government on a cost reimbursement basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and of the City's internal service fund are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover cost of connection new customers to the system. Operating expenses for enterprise funds and the internal service fund include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTES TO FINANCIAL STATEMENTS

D. Assets, liabilities and net assets or equity

1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the government to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments.

Investments are reported at fair value.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

3. Restricted assets

In accordance with revenue bond and installment contract requirements, resources are set aside in the Water and Sewer Enterprise Funds to meet principal and interest repayment requirements. Because these resources are restricted or limited as to their use, they are classified as restricted assets on the balance sheet.

4. Inventory

Inventory is valued at the lower of cost or market in business-type activities, using the first-in/first-out (FIFO) method.

5. Capital assets

Capital assets, which include property, plant, equipment and water and sewer systems, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets

NOTES TO FINANCIAL STATEMENTS

with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	15-30
Water and sewer system infrastructure	20-100
Equipment	5-10

6. Compensated absences

Employees earn vacation and sick leave based on years of service. Vacation days are accrued annually on the employee's anniversary. Upon termination, employees receive payment equal to 85% of their unused sick leave and 100% of their unused vacation hours. The vacation hours accrued at the June 30 year end are valued using each employees current pay rate. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

7. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

NOTES TO FINANCIAL STATEMENTS

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Deferred revenues

Deferred revenues are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met.

9. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

10. Property taxes

Property taxes attach as an enforceable lien on property as of December 31 each year. City taxes are levied on the following July 1, and are due on September 15 with the final collection date of February 28 before they are added to the County tax rolls. City property tax revenues are recognized as revenues in the fiscal year levied to the extent that they are measurable and available.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary information

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the General and Special Revenue Funds.
- 2. Public hearings are conducted to obtain taxpayer comments.

NOTES TO FINANCIAL STATEMENTS

- 3. On or before the first regular council meeting in May, by resolution, the budget is legally enacted at the activity level for the General and Special Revenue Funds for the ensuing fiscal year in accordance with Public Act 621 of the State of Michigan.
- 4. The Council is authorized to transfer budgeted amounts from one department or fund to another.
- 5. Formal budgetary integration is employed as a management control device during the year for all budgetary funds. Also, all budgets are adopted on a basis consistent with generally accepted accounting principles.
- 6. Budget appropriations not encumbered lapse at the end of the fiscal year.
- 7. The original budget was amended during the year in compliance with the City Charter and applicable State laws. The budget to actual expenditures in the financial statements represent the final budgeted expenditures as amended by the City and are presented at the activity level.
- 8. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed in the governmental funds.

B. Excess of expenditures over appropriations

The following Special Revenue Fund expenditures exceeded budgeted appropriations at the activity level, which is the City's level of budgetary control, for the year ended June 30, 2004:

	Appropriations	Expenditures	Variance <u>(Unfavorable)</u>
Special Revenue Funds:			
Major Streets – Highways			
and streets	\$ 573,900	\$ 1,074,322	\$(500,422)

The expenditures over appropriations in the Major Streets Fund – Highways and Streets activity is the result of the City recognizing expenditures of \$671,148 in federal grant funds that were expended on their behalf through the Michigan Department of Transportation. The grant award is for reconstruction of major streets within the City of Linden but the Michigan Department of Transportation receives the funds because the City has entered into an administrative agreement with the State.

NOTES TO FINANCIAL STATEMENTS

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Government-wide Financial Statement Captions:

Cash and cash equivalents
Investments
Restricted cash and cash equivalents

Total

\$2,425,956
452,051
466,254

The City's cash and investments at June 30, 2004, are classified for disclosure purposes under the following classifications:

Deposits	\$ 2,892,210
Investments	452,051
Total	\$_3,344,261

Deposits

Deposits are carried at cost. Deposits of the City are at five financial institutions in the name of the City.

As of June 30, 2004, the carrying amount of the City's deposits was \$2,892,210 and the bank balance of those deposits were classified as to risk as follows:

	Bank <u>Balance</u>
Insured (FDIC) Uninsured	\$ 670,906 2,180,268
Total	<u>\$ 2,851,174</u>

The City evaluates each financial institution it deposits City funds with and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

NOTES TO FINANCIAL STATEMENTS

Investments

The City is authorized by City Council and Michigan Public Act 20, as amended, to invest surplus funds in the following:

- ♦ Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- ♦ Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- In banker's acceptances of United States banks.
- Obligations of the State of Michigan and its political subdivisions that, at the time of purchase, are rated as investment grade by at least one standard rating service.
- ♦ Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- ♦ External investment pools as authorized by Public Act 20 as amended through December 31, 1997.

The City's investments are categorized below to give an indication of the level of risk assumed by the entity at June 30, 2004. Risk Category 1 includes those investments that are insured, registered or held by the City or the City's agent in the City's name. Risk Categories 2 and 3 include investments that are neither insured nor registered.

Category 2 includes investments that are held by the counterparty's trust department (or agent) in the City's name. Category 3 includes investments held by the counterparty or the counterparty's trust department (or agent) but not in the City's name.

NOTES TO FINANCIAL STATEMENTS

	Carrying <u>Amount</u>	Fair <u>Value</u>
Uncategorized as to risk:		
Municipal investment funds	<u>\$ 452,051</u>	<u>\$ 452,051</u>

The above investments are not categorized because they are not evidenced by securities that exist in physical or book entry form. Management believes that the investments in these funds comply with the investment authority noted above.

B. Receivables

Receivables as of year end for the City's governmental and business-type activities in the aggregate, are as follows:

	Governmental Activities	Business-type <u>Activities</u>
Receivables:		
Accounts	\$ 5,850	\$ 172,887
Special assessments – current	150,164	80,892

Accounts payable Accrued payroll	\$ 74,539 29,163	\$ 79,476 633		
Deposits Deposits	3,805			
Total payables	<u>\$ 107,507</u>	<u>\$ 80,109</u>		

E. Interfund transfers

Following is a summary of transfers between funds of the City for the fiscal year 2004. These transfers are part of the normal budgetary process and are necessary to provide resources in appropriate funds as designated by the City Council.

Interfund transfers:

	7	Transfer from		
Transfer to:	General	Major <u>Street</u>	Cemetery <u>Trust</u>	Total
General fund	\$ -	\$ -	\$ 610	\$ 610
Local Street	30,000	33,750	-	63,750
Employee Health Care	5,000	-	-	5,000
N. Bridge Debt				
Service	7,000	-	-	7,000
Cemetery Trust	3,825			3,825
Total	\$ 45,825	\$ 33,750	<u>\$ 610</u>	\$ 80,185

The interfund transfers from the General Fund to the Employee Health Care and N. Bridge Debt Service Funds are to cover expenditures related to General Fund activities.

The interfund transfers from General and Major Street Funds to Local Street is to provide the required local match on various projects under ACT 51 and to cover expenditures when there was not sufficient funds available in Local Street.

NOTES TO FINANCIAL STATEMENTS

The interfund transfer from the Cemetery Trust to the General Fund is to use the interest that was earned on the principal for current cemetery maintenance expenditures as allowed by the trust agreement.

The interfund transfer from the General Fund to the Cemetery Trust is to add the portion of lot sales that is required to be added to the principal in the Trust for cemetery maintenance.

F. Long-term debt

Outstanding Debt

The following is a summary of the debt outstanding of the City of Linden as of June 30, 2004, and the changes therein:

	Principal Balance July 1, 2003	Additions	(Deductions)	Principal Balance June 30, 2004	Due Within <u>One Year</u>
Governmental activities Installment loans: 2003 East Street Drain, with an interest rate of 3.25%, due semi-annually through February 2010	\$ 160,000		\$ (22,857)	\$ 137,143	\$ 22,857

	<u>\$ 3,856,692</u>	<u>\$1,468,872</u>

IV. Other information

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and distribution of assets; errors and omissions; injuries to employees and natural disasters. The City carries commercial insurance to cover any potential claims associated with these risks and has had no claims that exceeded the insurance coverage during the past three years.

B. Contingencies and commitments

The City is a defendant in various lawsuits. It is the opinion of City management and its counsel that the outcome of the lawsuits now pending will not materially affect the operations or the financial position of the City.

Under the terms of certain federal grants, periodic audits are required and certain costs may be questioned as not representing appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. City management believe disallowances, if any, would be minimal.

NOTES TO FINANCIAL STATEMENTS

C. Defined contribution benefit plan

The City of Linden Group Pension Plan is a defined contribution pension plan established by the City Council and administered by ICMA, a third party, to provide benefits at retirement to eligible employees. Substantially all full time employees are eligible to participate in the plan. At June 30, 2004, all 12 eligible persons were plan members.

Employees are not required to contribute to the plan. The City is required to contribute 7% of the employee's annual salary.

Contributions made by the City vest 20% per year through year five at which time the employee is fully vested. An employee who leaves the employment of the City is entitled to his or her contributions and the City's contributions, plus interest earned.

Plan provisions and contribution requirements are established and may be amended by the City Council.

During the year, the City's required and actual contributions amounted to \$30,463.

D. Building department activities

Building department revenues and expenditures for the year were as follows:

Revenues	\$ 54,563
Expenditures	(46,691)
Operating deficit from prior years	 (15,120)
Total operating deficit, cumulative	\$ (7,248)

NOTES TO FINANCIAL STATEMENTS

V. RESTATEMENTS

A. Implementation of new accounting standards

As of and for the year ended June 30, 2004, the City implemented the following Governmental Accounting Standards Board pronouncements:

Statements

- ♦ No. 34 Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments
- ♦ No. 37 Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus
- ♦ No. 38 Certain Financial Statement Note Disclosures

Interpretation

♦ No. 6 – Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements

The above pronouncements are all related to the new financial reporting requirements for all state and local governments. These pronouncements are scheduled for a phased implementation (based on the size of the government) through fiscal years ending in 2005. The City is required to implement the new requirements no later than the fiscal year ending June 30, 2004. The more significant of the changes required by the new standards include:

- Management's discussion and analysis;
- Basic financial statements that include:
 - Government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting;
 - Fund financial statements, consisting of a series of statements that focus on a government's major governmental funds and enterprise funds;
 - Schedules to reconcile the fund financial statements to the government-wide financial statements;
 - Notes to the basic financial statements:
- Required supplementary information, including certain budgetary schedules.

NOTES TO FINANCIAL STATEMENTS

As a result of implementing these pronouncements for the fiscal year ended June 30, 2004, the following restatements were made to beginning net assets:

Government-wide financial statements.

Beginning net assets for governmental activities were determined as follows:

Fund balances of general, special revenue, capital project	
and permanent funds as of 6/30/03	2,149,424
Add: long-term receivables as of 6/30/03	1,074,696
Add: governmental capital assets, including	
general fixed assets, as of 6/30/03	2,181,274
Deduct: accumulated depreciation as of 6/30/03	
on above governmental fixed assets	(374,579)
Deduct: accrued interest payable as of 6/30/03	(24,305)
Deduct: installment contracts payable as of 6/30/03	(160,000)
Deduct: bonds payable as of 6/30/03	(2,957,310)
Deduct: accumulated compensated absences	
liability as of 6/30/03	(37,441)
Elimination of internal service fund activities	
as of 6/30/03	 376,391
Governmental net assets, restated, as of 6/30/03	\$ 2,228,150

Beginning net assets for business-type activities were determined as follows:

Retained earnings of enterprise funds as of 6/30/03 Elimination of internal service fund activities	\$ 2,873,772
as of 6/30/03	(16,258)
Business-type net assets, restated, as of 6/30/03	\$ 2,890,030

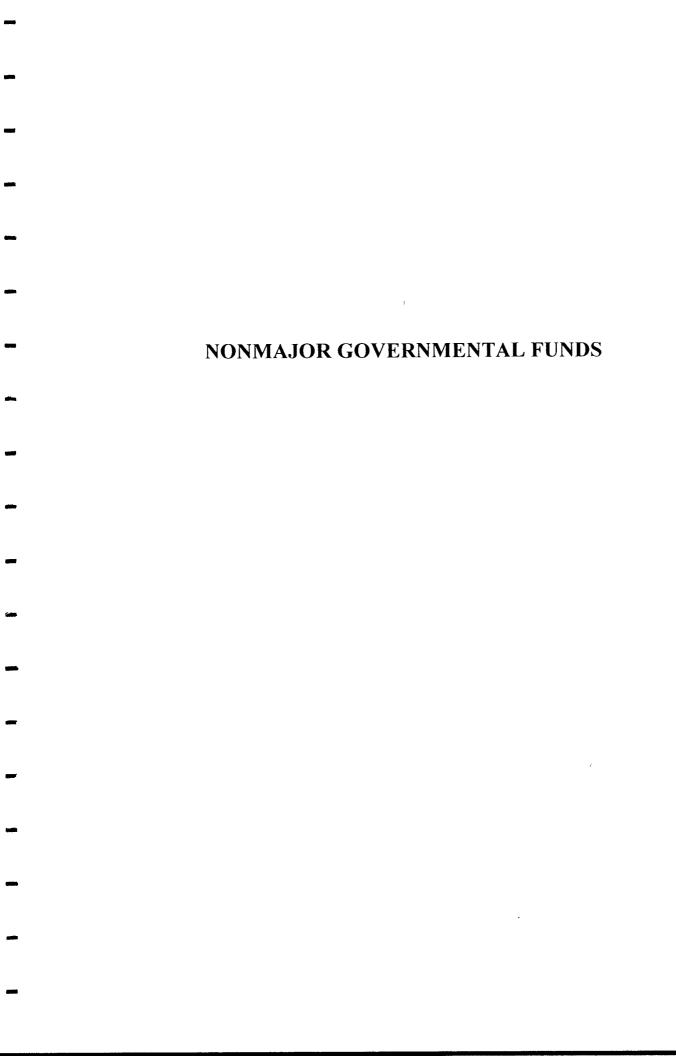

NOTES TO FINANCIAL STATEMENTS

B. Prior period adjustments

The City has adjusted opening net assets in the proprietary funds to properly reflect the recording of accrued interest on long-term debt. As a result, the beginning net asset balances in the Sewer, Water and Internal Service Funds have been restated as follows:

	Sewer	Water	Internal Service
Beginning net assets	\$2,093,794	\$ 829,918	\$ 406,909
Adjustment to reflect accrued interest payable	(41,168)	(8,772)	(14,260)
Beginning net assets, as restated	<u>\$2,052,626</u>	<u>\$ 821,146</u>	<u>\$ 392,649</u>

Ratio to 2003 True Cash Value		3.49%		7.56%	

Pension Fund

The City pays 7% of its employees' wages to the ICMA Retirement Trust 401(k) Plan. The City's contributions for the past six fiscal years are as follows;

Year ended <u>June 30</u>	Amount Paid to Pension Fund		
2004 2003 2002 2001 1999 1998	\$	30,463 33,229 27,915 23,274 17,619 16,238	

Legal Debt Margin

Act 279, Public Acts of Michigan, 1909, as amended, provide that the net indebtedness of the City shall not be in excess of 10% of the state equalized valuation of all real and personal property. According to Act 279 bonds not included for purposes of calculating the legal debt margin are:

- (1) Special Assessment Bonds
- (2) Transportation Fund Bonds
- (3) Revenue Bonds
- (4) Pollution Abatement Bonds for public health purposes
- (5) Water Resources Commission or court orderd bonds

FEDERAL FUNDS AUDITED BY OTHERS				
U.S. DEPARTMENT OF TRANSPORTATION Passed-through Michigan Department of Transportation Transportation Grant	20.205	STP0325020	1,340,700	671,148
TOTAL U.S. DEPARTMENT OF TRANSPORTATION				671,148
TOTAL FEDERAL FINANCIAL ASSISTANCE				\$ 703,523
TOTAL FEDERAL FINANCIAL ASSISTANCE				J 703,323

NOTE 1 BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Linden and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE 2 FUNDS NOT SUBJECT TO SINGLE AUDIT DETERMINATION

The Transportation Grants passed through the Michigan Department of Transportation (MDOT) are administered by MDOT and are subject to auditing procedures in accordance with the Single Audit Act at the State level. The City includes these funds in the financial statements for the purpose of reflecting all federal awards expended to benefit the City of Linden.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

August 12, 2004

To the City Council City of Linden Genesee County, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the *City of Linden, Michigan* as of and for the year ended June 30, 2004 which collectively comprise the City's basic financial statements, and have issued our report thereon dated August 12, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the *City of Linden's* financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the *City of Linden's* internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the City Council, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
